

Vineland Rotary Club

Member in Good Standing Guidelines

The purpose of “The Rotarian in Good Standing” Guidelines is to provide Rotarians with an understanding of the guidelines of membership that we feel will help make the Rotary Club of Vineland a stronger and more productive club. In addition to required dues paid in a timely manner and your 50% recommended attendance requirement for all Rotarians as outlined in the Dues Letter, below is a listing of activities we highly recommend for each member.

- Every member should serve or participate on at least ONE COMMITTEE, or subcommittee, within the club each year. A complete list of our club’s committees, projects, and fundraisers as well as those to contact is attached to this letter.
- Every member is expected to actively participate in TWO OR MORE COMMUNITY SERVICE PROJECTS each year in some capacity. Helping hands at these events are always needed and appreciated.
- We are asking each member to share in our fundraising goals. For our club to continue its outstanding history of providing help and support to the many worthy organizations, community service projects, and community scholarships, we as a club must sustain a high level of fundraising to simply maintain our current levels of giving. We seek as much help and fundraising dollars as you can provide by selling tickets, 50/50, attending fundraising events, and recruiting sponsorships to guarantee our club’s continued commitments to others. Circumstances may not allow you to sell tickets or attend fundraising events. Therefore, you may choose the option of making a donation to our Rotary Charities in supporting our local programs. This option may be discussed with the VP of Fundraising.
- It is the responsibility of every Rotarian to help Rotary grow and to invite others to join our ranks. We are asking you to go out and find someone just like yourself to introduce him or her to Rotary and our club each year. The simple acts of friends inviting friends into Rotary and helping guide them through the membership process and club activities are the most effective way to help this outstanding organization grow. Provided is a form to complete listing the people you may want to consider asking to join Rotary. Our club will waive the cost of lunch for the first visit of a potential Rotarian.
- In addition to our regular club activities, we also conduct “fellowship” activities within the club. To help build fellowship within the club and help develop new friendships, and strengthen others, we hope you will join us in these activities.
- Rotary District 7505 and Rotary International provide training programs, conferences, assemblies, conventions, and other social activities to help build a better understanding of Rotary and encourage fellowship with other Rotarians from around the area and the world. Rotary training programs can prepare you for leadership opportunities within our club and District. Hopefully, you will decide to experience these activities for yourself.

Being a Rotarian means living the 4 Way Test and helping others. It also means a commitment on every member’s part to help keep our club strong and active. Hopefully, these guidelines will help you better understand the assistance we need from every member in reaching our goal of helping others in our community, and around the world.
